Good morning, Kent!

I miss seeing you bright & early in the parking garage.

It was always a nice way to start the day.

I wanted to ask if you had any suggestions about a company that makes fabric printers/machines? I have a friend in Boston that works for a company, involved in pharmaceutical manufacturing, and they are looking to use a machine that can handle large quantities of plastic and it involves a vacuum-like process...my friend told me it's similar to a fabric printer and thought of me because of working here.

I'm sure it's a lot more involved, but this was how he explained it to me.

I'd appreciate any insight or suggestions you may have...just hoping I can direct him to someone in the industry.

Hope you are doing well...look forward to hearing from you...and maybe bumping into you in the lobby some time!

Thank-you ☺
